# Daily Standup Meeting

| Project Name: Railway Tracking and Arrival Time Prediction System | Group Name: Vitality |
|---|---|
| Sprint Number: 1 | Date and Time: 04/02/2026 10:00-13:00 |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? YES

**Project Progress:**

**Team Member (1): Name: Casey**

1. What will you do today?
   Answer: Today I am going to aim to guide my team in discussion of our project's scope, as well as assisting my group members in using and understanding the git repository.

2. What obstacles are impeding your progress?
   Answer: Potential difficulties could appear in setting up the git repository for all members, as well as any disagreements that could come from clashing ideas for the project.
   The main issue is our current lack of a fifth member.

**Team Member (2): Name: Rishon**

1. What will you do today?
   Answer: Today I am going to plan for our project's scope, I am going to discuss a list of objectives to complete with my group members.

2. What obstacles are impeding your progress?
   Answer: The obstacles that are impeding my progress are setting up the git repository as well as deciding on the type of app we collectively choose to build.

**Team Member (3): Name: Ishaan**

1. What will you do today?
   Answer: Today we will discuss the initial ideas of the project. By breaking down the assignment's requirements and assigning roles to the team members. We created the Git repository and set up the coding environment.

2. What obstacles are impeding your progress?
   Answer: We currently do not have a 5th member in the group, and this meant that we need to look at assigning roles and distributing the workload evenly among team members.

**Team Member (4): Name: Naga**

1. What will you do today?
   Answer: I will be discussing with my team on design, functions, features and layout. As well as getting a clear understanding about the resources and tools we will be utilising in order to make the project workflow clutter free.

2. What obstacles are impeding your progress?
   Answer: Connecting and integrating all tools for the Git process, to ensure that versioning, testing and deployment will be smooth.

| Sprint Number: 2 | Date and Time: 11/02/2026 10:00-13:00 |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? YES

## Project Progress:

**Team Member (1): Name: Casey**

1. What did you accomplish yesterday?
   Answer:
   In our last meeting we were able to start a general plan, as well as setting everybody up with the github repository.

2. What will you do today?
   Answer:
   Today I aim to guide my team in creating a more focused plan, including details such as data structures and algorithms.

3. What obstacles are impeding your progress?
   Answer:
   Currently the biggest obstacle to our progress is our persisting lack of a fifth member. This issue would have been resolved since our last meeting, however the person that was assigned to our group found another group instead.

**Team Member (2): Name: Rishon**

4. What did you accomplish yesterday?
   Answer:
   We accomplished setting up our git repository and started off with a general plan by setting out different tasks for everyone to complete.

5. What will you do today?
   Answer:
   Today I aim to create UI designs for my groups project to get a rough understanding of the approach we wanted to take as well as deciding on the type of design and colour scheme we would like to adhere to.

6. What obstacles are impeding your progress?
   Answer:
   We are still struggling to find a 5th member that can help us quicken our progress.

**Team Member (3): Name: Ishaan**

3. What did you accomplish yesterday?
   Answer: Yesterday we created our git repository and assigned different roles to our group members which helped us to distinguish which individual carries out what task

4. What will you do today?

Answer: Today I will research into ideas that I can collect for our group project as well as learn about the different types of data structures and algorithms

5. What obstacles are impeding your progress?
   Answer: We still were not provided with a 5th member of the group. Some team members were also facing Git setup issues, which meant that we weren't all able to coherently collaborate.

**Team Member (4): Name: Naga**

3. What did you accomplish yesterday?
   Answer: We successfully set up our github repository that will aid us with the creation of our website/mobile app.

4. What will you do today?
   Answer: Today my aim is to share ideas on the UI designing and discuss the features that are to be implemented.

5. What obstacles are impeding your progress?
   Answer: Currently struggling to find a 5th member

# Daily Standup Meeting

| | |
|---|---|
| Project Name: Railway Tracking and Arrival Time Prediction | Group Name: Vitality |
| Sprint Number: 3 | Date and Time: 04/03/2026 10:00-13:00 |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? NO

**Project Progress:**

**Team Member (1): Name: Casey**

7. What did you accomplish yesterday?
   Answer: In our last meeting we successfully designed classes and data structures and started work on the backend script.

8. What will you do today?
   Answer: Today I aim to set up the Users database for our project.

9. What obstacles are impeding your progress?
   Answer: Currently I am unsure of how to create a database, so I will need to learn how to during this meeting.

**Team Member (2): Name: Rishon**

10. What did you accomplish yesterday?
    Answer: I successfully planned out and created UI designs for our project as well as creating the necessary classes that will be implemented from our backend.

11. What will you do today?
    Answer: Today I will begin to work on some of these classes that will be used in the frontend and slowly start to incorporate my UI designs into the project.

12. What obstacles are impeding your progress?
    Answer: I am struggling to identify some extra classes and tech stack that will be needed; however, I will consult with my team members to overcome this.

**Team Member (3): Name: Ishaan**

6. What did you accomplish yesterday?
   Answer: We have started initialising the classes required for the project. Also begun work on the frontend by designing the wireframes and layout.

7. What will you do today?
   Answer: Today my focus is to discuss with the team and finalise what tech stack we will be using for the backend.

8. What obstacles are impeding your progress?
   Answer: We faced a few version mismatches across the team's machines as some could not load the latest version of the project on their device.

**Team Member (4): Name:  Naga**

6. What did you accomplish yesterday?
   Answer: Participated in decison making to choose the most compatible tech stack to meet our goals and project requirements.

7. What will you do today?
   Answer: I will spend time analysing our foundation laid for the project as it will give me a better understanding and equip me with adequate knowledge to make logical decisions on future development, i see taking a moment to grasp the workflow as a crucial step for a smooth progress.

8. What obstacles are impeding your progress?
   Answer: No obstacles at this stage.

# Daily Standup Meeting

| | |
|---|---|
| Project Name: Railway Tracking and Arrival Time Prediction | Group Name: Vitality |
| Sprint Number: 4 | Date and Time: 11/03/2026 10:00-13:00 |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? NO

**Project Progress:**

**Team Member (1): Name: Casey**

13. What did you accomplish yesterday?
    Answer: In our last meeting we successfully completed setting up the databases.

14. What will you do today?
    Answer: Today I am to help guide my team's progress by reviewing with them the MOSCOW model layout for program requirements that I created.

15. What obstacles are impeding your progress?
    Answer: Differing ideas of the project brief could delay progress.

**Team Member (2): Name: Rishon**

16. What did you accomplish yesterday?
    Answer: I successfully created some of the necessary classes for the frontend of our project and I started to implement the UI design choices I initially designed and devised.

17. What will you do today?
    Answer: Today my focus is to understand my team member's MOSCOW model layout to better understand the rest of the tasks that must be completed as well as finishing off the initial design of our frontend homepage. I will also create the login and register page and add functionality to both, so they work together.

18. What obstacles are impeding your progress?
    Answer: Database issues whilst attempting to retrieve data for some of the webpages.

**Team Member (3): Name: Ishaan**

9. What did you accomplish yesterday?
   Answer: We completed setting up the database for the project

10. What will you do today?
    Answer: Today we are going to be testing the database and delegate work to the respective team mates on how to progress to next steps.

11. What obstacles are impeding your progress?
    Answer: When testing the database, we faced some connection errors when trying to connect the backend to the database.

**Team Member (4): Name: Naga**

9. What did you accomplish yesterday?
   Answer: I implemented Bcrypt password to our user model and added delay detection Logic.

10. What will you do today?
    Answer: I will be running checks on the functions i have added and have a discussion with my team mates about the further features that has to be implemented. And have to work on alertservices to fetch data for delay detection logic.

11. What obstacles are impeding your progress?
    Answer: Delay detection needed alert services and Tfl statius API to fetch live disruption data, i couldnt see desired outcome of the delay detection.

# Daily Standup Meeting

| Project Name: Railway Tracking and Arrival Time Prediction | Group Name: Vitality |
|---|---|
| Sprint Number: 5 | Date and Time: 18/03/2026 10:00-13:00 |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? YES

**Project Progress:**

**Team Member (1): Name: Casey**

19. What did you accomplish yesterday?
    Answer: In our last session I was able to establish a clear list of criteria for the group, which has helped us certain features in development moving forward.

20. What will you do today?
    Answer: Today I aim to oversee the recent developments from other members and assist in further progress.

21. What obstacles are impeding your progress?
    Answer: No significant obstacles should be present today.

**Team Member (2): Name: Rishon**

22. What did you accomplish yesterday?
    Answer: Yesterday I was able to understand the MOSCOW checklist created by our team member and I was able to additionally develop the departures page and homepage to an extent. Furthermore, I created the login and register page; my teammates assisted me with setting up the database for this.

23. What will you do today?
    Answer: Today my aim is to fix any issues that occur within the departures database when retrieving and predicting a given station as well as revamp the alert service page entirely, whilst also ensuring that the website is functional.

24. What obstacles are impeding your progress?
    Answer: Some disagreements within the group were regarding the layout and additional features that are yet to be implemented.

**Team Member (3): Name: Ishaan**

12. What did you accomplish yesterday?
    Answer: We started working on respective aspects of the project. I began working on the frontend development and homepage features.

13. What will you do today?
    Answer: Today I will complete/debug the errors in the connection between backend and database and continue working on frontend features further.

14. What obstacles are impeding your progress?
    Answer: UI/UX disagreements with the team, causing us to re-evaluate design choices with the team to ensure the best outcome.

**Team Member (4): Name: Naga**

12. What did you accomplish yesterday?
    Answer: Previous days, i successfully found a open source interactive map to implement, and added live map feature by integrating leaflet map model and updated the homepage.

13. What will you do today?
    Answer: i will test the Live map working and functions, fix minor errors and make decisions on how to enhance the live map feautues and utilise it to the most.

14. What obstacles are impeding your progress?
    Answer: the live map page had issues interacting with the neccessary data it required to give desired results.

***"Alone we can do so little; together we can do so much." – Helen Keller***

# Daily Standup Meeting

| Project Name: Railway Tracking and Arrival Time Prediction | Group Name: Vitality |
|---|---|
| Sprint Number: 6 | Date and Time: 25/03/2026 10:00-13:00 |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? YES/NO

**Project Progress:**

**Team Member (1): Name: Casey**

25. What did you accomplish yesterday?
    Answer: In our last meeting we were able to make the initial developments on our frontend.

26. What will you do today?
    Answer: Today I aim to oversee my teams development of the frontend.

27. What obstacles are impeding your progress?
    Answer: We currently cannot make direct changes to the Azure sql database due to my subscription being cancelled.

**Team Member (2): Name: Rishon**

28. What did you accomplish yesterday?

Answer: Yesterday, I was able to fix the issues regarding the departures database and inculcated a working TFL API that retrieves live data for the departures page. I also transformed the alerts and delays page to match with the application's aesthetic look.

29. What will you do today?
    Answer: Today my focus is aimed towards developing the application even further; I will begin to enhance the functionality of the alert service features as well as connect the backend classes to the frontend ensuring that the data is specifically retrieved and called from the backend.

30. What obstacles are impeding your progress?
    Answer: My team member has identified certain bugs that have hindered our progress, so we are considering separating our code even further.

**Team Member (3): Name: Ishaan**

15. What did you accomplish yesterday?
    Answer: The database can now store persistent data and the connection errors we faced no longer exist between the backend and the database.

16. What will you do today?
    Answer: Today I will work further on developing the features of the frontend based on new design ideas we discussed as a group.

17. What obstacles are impeding your progress?
    Answer: The debugging and fixing of errors in the code is time-consuming and slowing down our progress in developing the different features. As we need to ensure there is consistency amongst everybody's code.

**Team Member (4): Name: Naga**

15. What did you accomplish yesterday?
    Answer: In our last meeting we managed to fix persisting issues with our frontend and database. And the previously implemented live map's errors were fixed and it now functions with any serious bugs.

16. What will you do today?

Answer: Today I aim to fix the local errors I face when trying to view the frontend, as well as to make more contributions to the report.

17. What obstacles are impeding your progress?
    Answer: I have been facing an error upon trying to view the frontend, which has only been occurring locally to me and one other member.

# Daily Standup Meeting

| | |
|---|---|
| Project Name: Railway Tracking and Arrival Time Prediction | Group Name: Vitality |
| Sprint Number: 7 | Date and Time: 01/04/2026 10:00-13:00 |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? YES

**Project Progress:**

**Team Member (1): Name: Casey**

31. What did you accomplish yesterday?
    Answer: I helped guide my team in creating frontend features.

32. What will you do today?
    Answer: Today I will assist in further developments/testing of the front end with my team.

33. What obstacles are impeding your progress?
    Answer: No major obstacles today.

**Team Member (2): Name: Rishon**

34. What did you accomplish yesterday?

Answer: Yesterday I enhanced the alerts page completely so now its fully functional and working, I have also joined the main elements in our frontend classes to the backend, so the application runs smoother than initially anticipated.

35. What will you do today?
    Answer: Today I aim to fix any broken functionality within the code as well as make significant progress on aiding my team members to write up the report of our project.

36. What obstacles are impeding your progress?
    Answer: No obstacles at this current stage.

**Team Member (3): Name: Ishaan**

18. What did you accomplish yesterday?
    Answer: Managed to fix all the errors that we experienced during feature development. Also started to conduct some user tests on the functionality to improve our logic flow of the site.

19. What will you do today?
    Answer: I will begin research on how to integrate live/ real-time train data into the project and currently see if we can work with simulated data to observe how the site responds.

20. What obstacles are impeding your progress?
    Answer: The project is progressing smoothly at this stage at a steady rate.

**Team Member (4): Name: Naga**

18. What did you accomplish yesterday?
    Answer: Fixed the invalid station and destination ID on the search function.

19. What will you do today?
    Answer: Will work towards polishing the details and features.

20. What obstacles are impeding your progress?
    Answer: No obstacles at this stage.

| Project Name: Railway Tracking and Arrival Time Prediction | Group Name: Vitality |
| Sprint Number: 8 | Date and Time: 07/04/2026 10:00-13:00 |

| | |
|---|---|
| | |

**List of attendance:**

- Name: Casey Tyler-Woods Attended? YES
- Name: Rishon Ramdany Attended? YES
- Name: Ishaan Hari Attended? YES
- Name: Naga Arun M Attended? YES

**Project Progress:**

**Team Member (1): Name: Casey**

37. What did you accomplish yesterday?
    Answer: In our last meeting I help in discussions over frontend design.

38. What will you do today?
    Answer: Today I aim to finish the report while also overseeing my team's changes to the frontend.

39. What obstacles are impeding your progress?
    Answer: No significant obstacles today.

**Team Member (2): Name: Rishon**

40. What did you accomplish yesterday?
    Answer: Yesterday, I was able to fix the broken functionality of our code as well as removing some of the additional features that weren't required. I assisted my team members to finish up the report write up in addition to this.

41. What will you do today?
    Answer: Today, my aim is to clean up any unnecessary classes that aren't into use. Also, I will help to check that our application is fully working and finally create the conclusion that talks about the strengths, the drawbacks and any future improvements or changes regarding our project design and workflow.

42. What obstacles are impeding your progress?
    Answer: No obstacles are impeding our progress.

**Team Member (3): Name: Ishaan**

21. What did you accomplish yesterday?
    Answer: Added additional data that the user can view when clicking on the train journeys after searching via their respective criteria.

22. What will you do today?
    Answer: We will conduct unit testing. As I am not the tester, I will oversee this and ensure that a relevant unit test framework is selected, we have test use cases, and we iterate after analysing the results of our tests.

23. What obstacles are impeding your progress?
    Answer: No obstacles currently impeding our progress.

**Team Member (4): Name: Naga**

21. What did you accomplish yesterday?
    Answer: major changes were committed, including resolving errors and implementing new UI features ( as custom date and time search, dark mode rebuilding train pages and few others )

22. What will you do today?
    Answer: I will be ensuring all the new changes works without failure and preparing to present the project.

23. What obstacles are impeding your progress?
    Answer: I could test the new features and run error checks only during TFL service hours and not outside the working hours as our project is perfectly updating real time status of the TFL service. But nevertheless, no other obstacle arose during my progress towards the final set.
